

Elo Global Card

An embedded D-PAS chip appears on the card front.

16-digit Elo Card number starts with 65. The card number appears on the front panel of the card.

“Valid Thru” indicates last day of the month and year for which the card is valid.

Signature on the back of card should match the customer’s signature on the charge slip.

“elo” is printed repeatedly on a tamper-evident signature panel.

Elo logo appears on the card front.

Magnetic stripe should appear smooth and straight, with no signs of tampering.

The back of the card should display the acceptance marks of Discover®, Diners Club International® and PULSE®.

Troy Global Card

An embedded D-PAS chip appears on the card front.

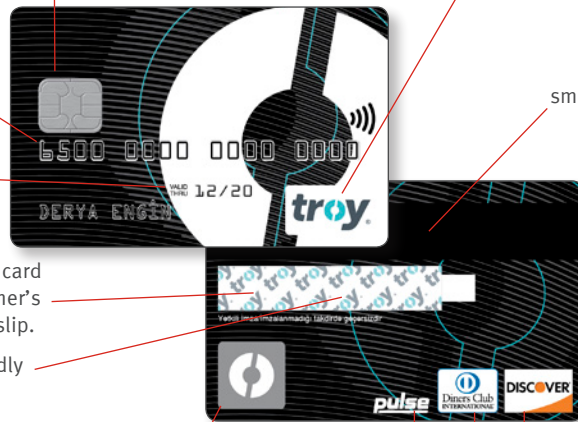

16-digit Troy Card number starts with 65. The card number appears on the front panel of the card.

“Valid Thru” indicates last day of the month and year for which the card is valid.

Signature on the back of card should match the customer’s signature on the charge slip.

“troy” is printed repeatedly on a tamper-evident signature panel.

“O” from Troy appears on the back of the card.

Troy logo appears on the front of the card.

Magnetic stripe should appear smooth and straight, with no signs of tampering.

The back of the card should display the acceptance marks of Discover®, Diners Club International® and PULSE®.

International Card Identification Features

For cards on the Discover® Global Network

Diners Club International®

The holographic magnetic stripe contains a repeating image of the Diners Club® logo, name and world map, which shift color and appearance when the card is tilted. It should be smooth, with no signs of tampering.

Three-digit CVV2 appears on the signature panel in indent printing (debossed). A full or partial account number may also appear in the same printing style.

The Diners Club® split circle graphic may appear on a tamper-evident signature panel. The words "Authorized Signature—Not Transferable" are printed under the signature panel.

The Discover® and PULSE® acceptance marks must appear in the lower left corner of the card back.

The Diners Club® split-circle graphic with slash marks will appear on the card front under an ultraviolet light (not shown).

The words "Valid Worldwide" must appear in the upper right corner of the card back, in a bold italic typeface.

The card may have a chip. Cards with chips also have a magnetic stripe. They have a shorter signature panel to accommodate the chip.

All Diners Club account numbers start with 30, 36, 38 or 39. Embossed card numbers should be uniform in size and spacing.

"Valid" and "Thru" dates indicate the first and last month in which the card is valid.

Some Diners Club® cards have a vertical design. The embossing, magnetic stripe and signature panel are still aligned across the long edge of the card.

Diners Club also supports unembossed cards (not shown). The account number, name and valid dates are laser printed in the standard position. If an unembossed card cannot be processed electronically, the card should not be accepted.

BC Global Card

Contact module with an embedded D-PAS chip appears on the card front.

BC Global Card account numbers start with 65. The account number appears on the front of the card.

"Valid Thru" indicates the last month in which the card is valid.

Cardholder name

The magnetic stripe should appear smooth and straight, with no signs of tampering.

BCCard hologram

The signature panel is shortened on chip-enabled cards. The signature on the card should match the customer's signature on the charge slip.

Some cards have a vertical format.

The BC Global Card logo appears on the card front.

The back of the card should display the acceptance marks of Discover, Diners Club International and PULSE, in addition to the BCCard Logo.

Discover®

Card numbers will appear on either the front or back of the card. Card numbers begin with the number "6" and are composed of 16 digits that should be clear and uniform in size and spacing.

The card may be a chip-enabled card, which will also have a magnetic strip on the back.

The "Valid Thru" date may appear on either the front or back of the card in an mm/yy format that indicates the last month in which the card is valid.

The cardholder name and, if applicable, business name, will appear on either the front or back of the card.

Cards must contain either the holographic magnetic stripe on the back of the card OR the security hologram on the card front or the card back.

An underprint of "VOID" on the signature panel becomes visible if erasure of the signature is attempted.

The Discover acceptance mark will appear on the back of most cards, and may also appear on the front of the card, along with other affiliated logos.

A 3-digit Security Code (CID) will appear to the right of the signature panel.

RuPay Global Card

An embedded D-PAS chip appears on the card front.

16-digit RuPay Card number starts with 65. The card number appears on the front panel of the card.

"Valid Thru" indicates last day of the month and year for which the card is valid.

Signature on the back of card should match the customer's signature on the charge slip.

RuPay logo appears on the card front.

Magnetic stripe should appear smooth and straight, with no signs of tampering.

The back of the card should display the acceptance marks of Discover, Diners Club International and PULSE, in addition to the RuPay hologram.
