DISCOVER® VERIFY +

Not just fraud protection: Reputation protection.

CARD-NOT-PRESENT FRAUD IS ON THE RISE

Card-not-present (CNP) fraud is a growing threat, causing irreparable damage to companies' reputations.

As technology advances, CNP fraud does too, becoming more sophisticated and appearing legitimate more often.

DISCOVER RETURNS CONFIDENCE TO CNP COMMERCE

While preventing fraud is important, maintaining your company's good name is critical.

Discover offers solutions that keep you one step ahead of CNP fraud.

VERIFY+: PROTECTION ONLY DISCOVER CAN PROVIDE

Verify+ is an added layer of fraud protection that delivers greater certainty with every Discover transaction you process.

Only Verify+ allows you to validate data directly against Discover cardholder information at the time of the transaction.

GET THE RIGHT INFORMATION RIGHT AWAY

Verify+ provides the information you need to identify high-risk transactions before fulfillment. You will maximize CNP fraud protection while still providing a seamless, non-disruptive customer experience. Verify+ offers two options to meet your needs: Standard, which is a web-based interface or Premium, which uses an API connection. Both validate customer data.
